Summary

Engagement-focused Consultant with 6+ years at Deloitte, leading AI-enabled digital transformation and operations programs for Fortune 500 retailers. Proven in owning end-to-end workstreams from problem definition through executive recommendations, eliminating up to 95% of manual operations, improving SLA performance by ~80%, and protecting business continuity across mission-critical systems. Recognized for building and mentoring high-performing teams, partnering with senior stakeholders, and delivering data-backed value cases across global delivery models.

Professional Experience

Engagement Lead / Consultant – Digital Transformation & Operations *Bengaluru & Gurugram*
Deloitte Consulting USI *June 2023 – present*

- Owned end-to-end delivery of a digital transformation program for a Fortune 500 US retailer, framing the problem statement, defining hypotheses, and leading execution across data, automation, and integration workstreams
- Led and mentored a cross-functional team of 5+ consultants, managing work planning, quality assurance, and performance feedback while maintaining delivery across parallel client initiatives
- Partnered with senior client stakeholders to deliver executive-level KPI dashboards and value realization narratives, aligning technology roadmaps to operational and commercial priorities
- Architected an operational excellence platform deploying 15+ automation solutions, eliminating ~95% of manual processes and reducing incident response time from ~20 minutes to under 5 minutes
- Stabilized enterprise integration and data ecosystems, reducing production failures by ~80% and safeguarding revenue-critical workflows during peak retail cycles
- Designed a role-based self-service platform enabling business teams to manage complex data operations independently, reducing cross-team dependency and accelerating decision cycles
- Established scalable knowledge assets (playbooks, executive walkthroughs, training modules) adopted across multiple teams to standardize delivery and solution reuse

Senior Analyst – Business Technology & Integration *Bengaluru & Gurugram*
Deloitte Consulting USI *Aug 2020 – June 2023*

- Translated senior leadership objectives into structured workplans and technical roadmaps, ensuring alignment between business strategy and execution
- Led performance engineering for 100+ enterprise integrations, maintaining system reliability during high-volume retail and logistics operations
- Drove cost and productivity improvements through automation initiatives, saving 4+ FTE hours per day across monitoring and reporting workflows
- Resolved critical batch-processing bottlenecks, protecting time-sensitive and revenue-generating business processes
- Built onboarding and quality frameworks that reduced ramp-up time for new consultants and improved delivery consistency

Early Professional Experience *India*
Deloitte USI / EXL Services *June 2019 – June 2020*

- Supported large-scale ERP testing and data validation efforts for a major healthcare client at Deloitte USI.

- Conducted security risk analysis and vulnerability assessments at EXL Services, ensuring compliance with global security standards like PCI-DSS.

Education

Thapar Institute of Engineering & Technology

Patiala, Punjab

Bachelor of Technology in Computer Engineering (Focus: Business Systems & AI)

June 2016 – Aug 2020

- Finalist, Smart India Hackathon 2018 — Led a team to develop a national-level proof-of-concept for automated governance (Project Haazri).
- Leadership recognition in Toastmasters International; consistently ranked for public speaking and communication excellence.
- Relevant Coursework: Business Systems, Artificial Intelligence, Cyber Security.
